# What we do

“Multi-technical services and specialized engineering and solutions, with efficiency as the core objective...”

**We transform processes by applying technology and knowledge:** turnkey projects, from the design to the implementation of solutions.

We provide **operation and maintenance** services to achieve greater efficiency by digitalizing processes.

“End-To-End integrated capabilities”

## Main benefits of this dual positioning

• **Virtuous business circle:** EPC turnkey projects require subsequent maintenance. Likewise, O&M services provide invaluable process knowledge that ends up in process improvement projects.

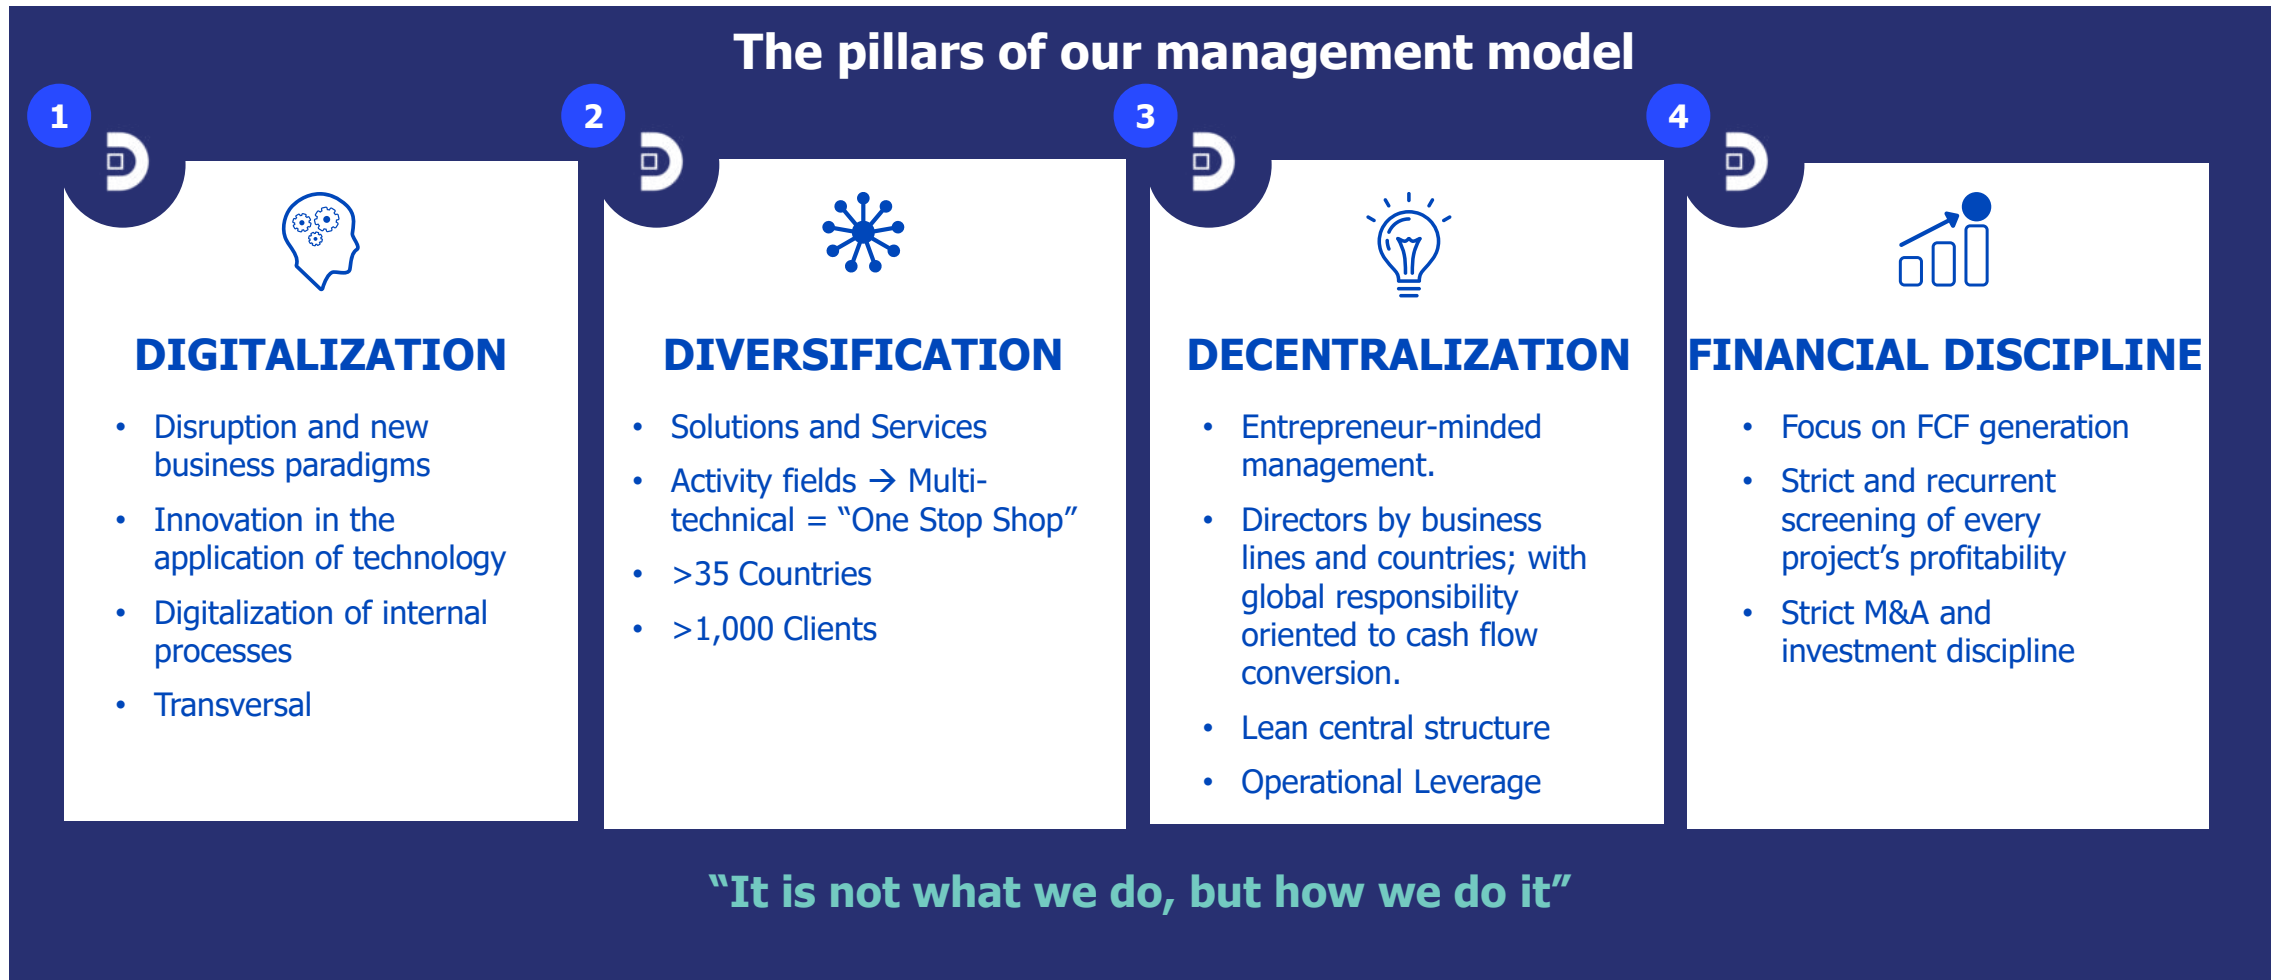

• **Risk Diversification:** we get presence in two segments which behave differently towards economic cycles.

• **Complementarity:** services give recurrence while solutions have higher margins. They allow a neutral WC model.

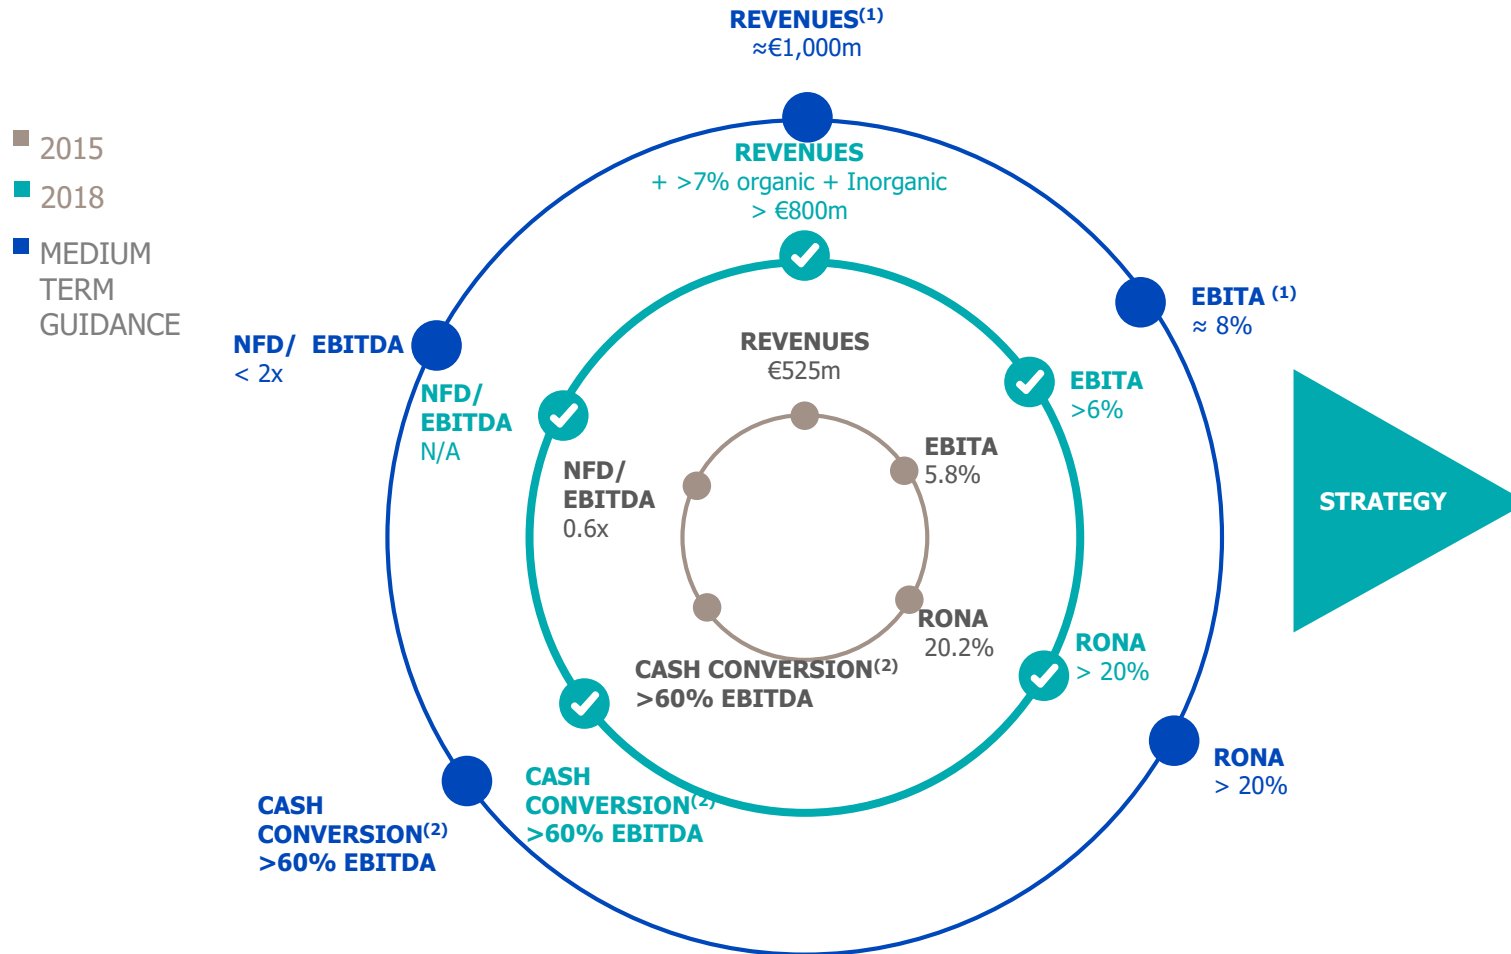

# How we do it

...based on the pillars of our management model: the **4 D's of Dominion**"

1. We are Dominion: company presentation
2. **Guidance**
3. 2018 Highlights
4. Annexes

# Financial Guidance established in 2016 for the medium term

## Drivers of growth

- Cross – selling
- Transversality. New verticals and countries.
- Sector trends.
- M&A / Inorganic Growth

## Drivers of profitability

- Operational efficiency
- Higher value-added services
- Operational leverage
- Higher value mix (Services/Solutions)

1. We are Dominion: company presentation
2. Guidance
- 3. 2018 Highlights**
4. Annexes

# 2018 at a glance

## “Successfully completed 2016-2020 strategy plan”

- ✓ Visibility on the **achievement of the financial guidance:**
  - **Sales growth** exceeding objectives set in the guidance
  - **Margin expansion** also **achieved**
  - Reorganization of shareholders and free-float increase

## “More knowledge, new capabilities and markets”

- ✓ Bolt-on acquisitions that have strengthened our positioning by **completing end-to-end capabilities and incorporating knowledge** to be the global service partner of our clients
- ✓ **Acquisition of Bygging India** that will allow the development of our industrial services and solution in the region.

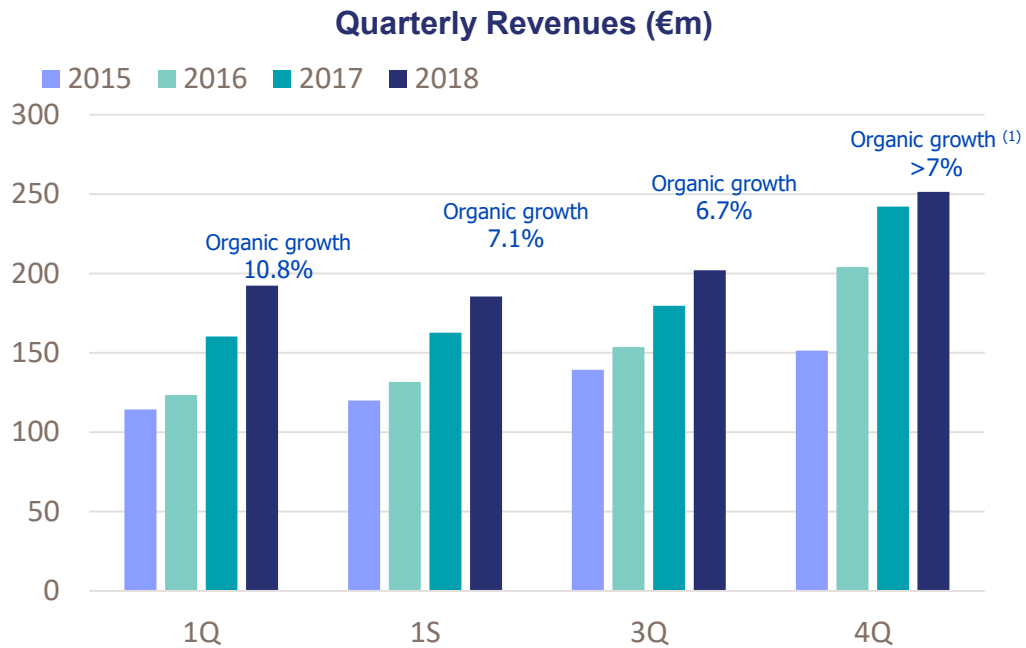

## “Consolidation of activities that will drive future growth”

- ✓ In 2018 **The Smart House project** won more than **70,000 clients** in its energy commercialization activity
- ✓ **Strategic** services and solutions **projects started in the energy activity field:** EPC Project in Angola and service contract with Tier 1 energy suppliers
- ✓ **New strategic plan** in place, to be presented **in Q2 2019**

# Revenue analysis

## Development analysis <sup>(1)</sup>

- Steady quarterly growth since 2015
- 2018 Annual organic growth >7% + Inorganic growth

## Diversification analysis <sup>(1)</sup>

### By segment

### By geographical area

### By activity area

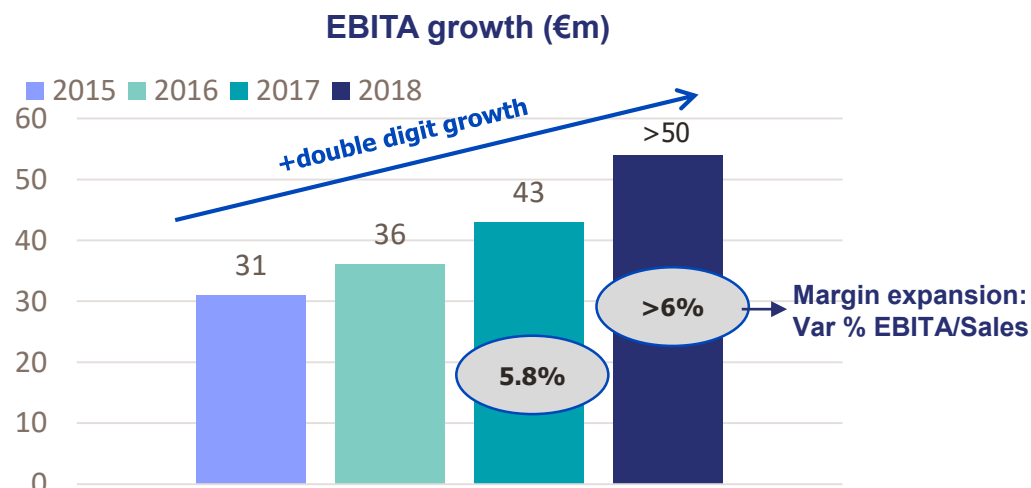

### Clients

- Service gains weight over solutions, but both grow
- Increasing presence in America and Asia
- Energy is the activity field that grows the most

# Margins and other key financials

## EBITA development<sup>(1)</sup>

- EBITA growing at high double digit
- **Margin level improvement** due to efficiency gains, central structure limited growth (<50% sales growth) and PH's higher margins level effect.

## Other key figures<sup>(1)</sup>

Cash flow conversion rate	>60% EBITDA	✓
Return on assets	RONA > 20%	✓
Debt structure	2018 NFD <sup>(1)</sup> : ≈ -100 m€	✓

- **High conversion of EBITDA into cash**
- Focus on profitability and capex control
- Positive net cash position

# Review of the 2018: solutions

## Highlights of 2018

### Project: energy transmission lines 360° EPC capabilities

- Where: Lauca – Luanda connection (**Angola**)
- Task: design, construction and commissioning of a 400 KV and 200km transmission line
- EPC turnkey project
- ESIA (Environmental Social Impact Assessment)

### M&A: acquisition to grow in India Tall structures capabilities

- Acquisition: Bygging India Limited, specialized in tall structures design and construction
- Objective: to enter Indian market to grow in the industrial solutions and services markets
- Other benefits: a platform do improve projects cost in the region

### Projects: renewable parks 360° EPC capabilities

- Where: Mexico, Argentina and Dominican Republic
- Status:
  - Started in 2018: EPC of a 24MW Biomass plant in Argent.
  - Under development: EPC of a 67MW solar park (>200.000 solar panels) in Dominican Rep.
  - O&M contract started in 2018: Kaixo solar plant in Mexico

# Review of the 2018: services

Revenue and retention rate (Million €, %)

## Highlights of 2018

### SMART HOUSE

#### 360° personal and home services

- 5 lines of activity: telecom, energy, insurance services, fintech and household services
- Objective: to be a platform that integrates all the services under one roof
- Omnichannel strategy
- Telecom and energy activity lines currently in place

### Tier 1 service provider

#### Getting closer to the customer to unlock further profits

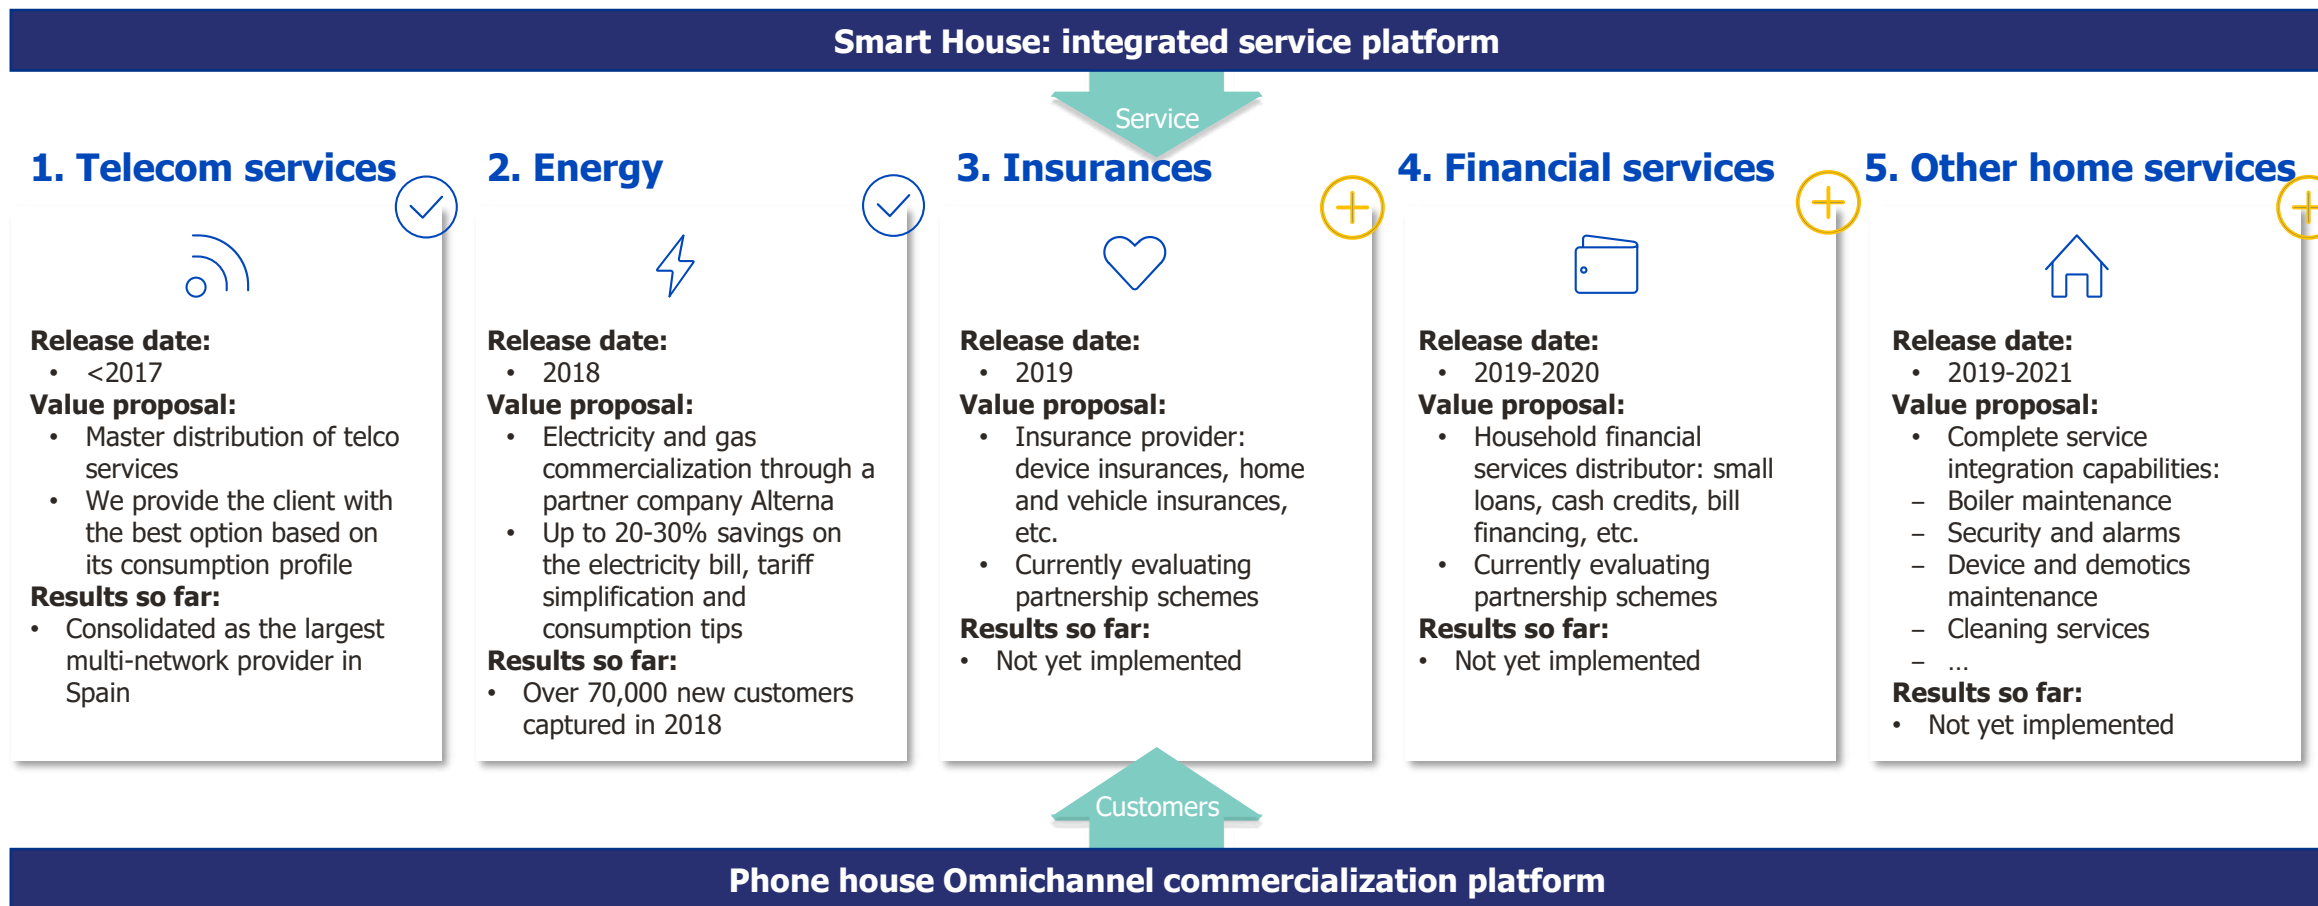

- Completed +4 multi-technical capabilities: heat + electromagnetics + IT + environmental services
- Value proposal based on Technology and innovation
- New markets: Colombia and Ecuador

# 20 years hand-in-hand with technology and disruption (1999–2019)

**Disruptive paradigm**

- Peak of the **digital revolution** and **technology** update
- In Spain: **liberalization** of the **Telco sector**
- The **industrial crisis** highlights the need for **restructuring** and **productive efficiency**
- **Liberalization and new global** energy model
- The **revolution of personal services** and the **internet-connected household**

**Respuesta**

- **In 1999** the investment group INSSEC made a commitment to technology and **set up Dominion Global**
- We position ourselves as an **integrator and maintainer of networks using technology** to respond to a deflationary environment that is continually adjusting costs
- **We acquired** know-how of industrial services and solutions through the incorporation of the German company **Beroa-Karrena** and activities of **Abantia**, among others
- We transfer our experience in the telco sector to define **value quotations** based on **technology and efficiency**
- We position ourselves on transformation axes:
  - We incorporated the team of Scorpio for the **development of 360 renewable energy facilities**
  - We acquired capacity to incorporate technology into **electricity grids**
- **We acquired Phone House** to become the reference integrator of household services

**Milestones / projects**

- **2005:** first major projects in healthcare and education
- **2017:** tsunami alert system in Chile
- **1999:** high complexity network infrastructure
- **2002:** service contracts with various operators
- **2008:** expansion in Latam
- **2014:** energy efficiency, sensorization and Smart Data projects
- **2017:** One-stop-shop with environmental services
- **2016:** Kaixo solar farm in Mexico
- **2018:** transmission network in Angola
- **2019:** Charging facilities in Spain
- **2018:** launch of **Smart House:** integration of telecoms, energy, financial services...

KAI XO PROJECT

For 20 years we have helped clients transform to become more efficient.

We apply technology and innovation to make this happen.

We are Dominion.
